Developing the Brain.
Mental health means mental digestion. The better the brain the better the digestion, of course, but the most ordinary brain can, by carefully considering what the eyes and ears bring it, become better and more fully developed, and of much greater use to its owner.—John Blake in Chicago Daily News.

"Good-Bye, Old Year!"

GOOD-BYE, Old Year!—the fickle World
Pursues another Flame,
And Time—the ruthless, changing Time—
Will now erase your name.

And yet your younger rival with
His aspect bright and new
Is but an unread version of
The hopes we had in you.

The apple-blossoms of his Spring,
The little seeds that lie
Deep buried in the Heart of Earth,
Will live again—and die.

He, too, will give the warmth of Sun,
And days of slanting rain,
As he deals out our yearly share
Of happiness and pain.

The big round moon and silver stars
That lighted up your skies
Will shine upon as many loves
In just as many eyes.

And he will bring the fragrant June
When crimson roses nod,
And hurry through the Summertime
To flaunt the goldenrod.

The painted pathway of his Fall
Will be with clouds o'ercast,
Because his Winter footsteps reach
The Portal you have passed.

Good-bye, Old Year!—we loved you well;
We found your treasures dear,
But you have died as monarchs die—
And so—Long live the Year!

—Nem Terrell Reed, in N. Y. Times
